

For Immediate Release

Mineworx Advances E-Waste Processing in Canada and the USA

Burnaby, B.C., Canada – July 17, 2018 – Mineworx Technologies Ltd., (the "Company" or "Mineworx") (TSXV: MWX) (OTCQB: MWXRF) (FSE: YRS WKN: A2DSW3) is pleased to report that in addition to the excellent results reported by our Joint Venture partner EnviroLeach Technologies in their news release of today (click [HERE](#) to view) that Mineworx has most recently achieved the following:

- Doubled the size of our current 7,050 sq. ft. fabrication facility in Coquitlam, British Columbia to almost 14,000 sq. ft.
- Leased an additional 13,674 sq. ft. facility in Vancouver (Surrey), BC
- Commencement of a 20 tonne per day E-Waste concentration plant to be assembled at our new Vancouver (Surrey) facility with our Joint Venture partner EnviroLeach Technologies Ltd.
- Appointment of a Human Resources, Health and Safety Manager.

"These combined facilities will quadruple the capacity of Company's E-Waste fabrication and production capabilities to almost 28,000 square feet," Commented Greg Pendura, CEO. "This expansion now enables Mineworx to move quickly upon the site acceptance of the Memphis, Tennessee E-Waste processing plant to immediately expedite our business model in this dynamic sector."

To facilitate with the expansion and transition into a fully operational organization, the Company has hired Sarah Heath as the Manager of Human Resources, Health and Safety. Sarah brings multiple years of experience in these functions and will assist with the progression of the Mineworx/EnviroLeach JV as it moves into commercial production.

About Mineworx

Mineworx is positioned for growth through partnerships with advanced mining and E-Waste opportunities utilizing its proprietary and patent pending extraction technologies. These innovations will increase and enhance business opportunities by deploying cost effective, environmentally friendly extractive metallurgy solutions.
